Fill Placement Application

Applicant: _____

Contact: _____ Bus. License No.: _____ State: _____

Address: _____

City: _____ State: _____ Zip: _____ Phone: _____

Hauler: _____

Quantity: _____ (CUBIC YARDS) Method of Placement: _____

For Placement At: Bingen Point Business Park Dallesport Industrial Park Through: ____ / ____ / ____

Completed applications must be mailed or hand-delivered to the Port at the above address. Incomplete, faxed, or photocopied applications will not be accepted. Upon approval, the Port of Klickitat agrees to accept fill material from the Applicant identified above subject to the following terms and conditions:

- Fill material must be solely comprised of uncontaminated soil, rock, stone, and/or dredged material.
- Hauler must **notify the Port at least 1 business day before** any day in which fill material will be deposited.
- Fill material may **not** include asphalt, organic material, "rebar", brick, block, concrete, material containing any substance in a concentration classified as hazardous waste by the US Environmental Protection Agency, material that is noxious or possessing an odor that would be disagreeable to Port tenants or visitors, material so wet as to be dripping liquid, or any other material not specifically named above and for which applicant has not received written permission from the Port.
- The Port does not guarantee access to fill acceptance locations. When necessary, the creation of suitable roads for the purpose of depositing fill is the responsibility of the Hauler.
- Damage to Port property as a result of hauling or depositing fill is the sole responsibility of the Hauler and shall be repaired to the Port's satisfaction at the Hauler's expense.
- When depositing fill, the Hauler agrees to indemnify and hold the Port of Klickitat, its commissioners, and its employees harmless for any damage to persons or property incurred while depositing fill.
- All material deposited as clean fill in compliance with Port policy shall become the property of the Port District.
- Material may be placed only within the permitted and designated area identified by the Port and listed below.
- Material placed on Port property that does not comply with this policy shall be removed by the Hauler at the Hauler's expense. In the case of noxious or hazardous chemicals which contaminate adjacent material, the Hauler will remove and replace any contaminated materials.

Before depositing fill, the applicant must complete, sign, and receive an approved copy of this document. The Port Commission or Executive Director has the sole power to interpret compliance with Port policy and determine whether certain material is permitted. **The signature below indicates acceptance of these terms by the Applicant.**
