<p><b><u>Aggregate Operator RFP Determination</u></b></p>	<p>(DM/PA) Donnelly has completed a red-lined copy of the operators's agreement based on (Exec.D) Sherwood's notes. He will go over the agreement with Port Counsel Wyers and Byron Hanke.</p>
<p><b><u>101 Parallel Building</u></b></p>	<p>(DM/PA) Donnelly presented a letter from an individual expressing interest in purchasing the 101 Parallel Building. PC Ford asked if there are any more inquires regarding leasing the building. (DM/PA) Donnelly said we have inquires regarding interest in 10,000 sq. feet, not 30,000 sq. feet. PC Ford said we need to know more about what is planed for the building. The roof repairs need to be addressed before winter. (DM/PA) Donnelly will investigate the roof repairs further. PC Ford and PC Deo would like to talk to Byron more about the 101 Parallel building and get his input. PC Vinyard feels cautious about selling the building because he would like to see a manufacturing business take over the building and put some people to work.</p>
<p><b><u>Executive Director's Report Continued</u></b></p>	<p>PC Deo expressed that we the Port should remain in control of the material until a satisfactory solution is reached between the two operators because Jim Riley has not been given a response to his request for an extension to his interim agreement to 10/31/07. Material that has been processed belongs to the Port until it is weighed and removed from Port property. Wyers asked Matt Riley for an estimate of how much material is on site. Riley said possibly 10,000 tons of 3/4" rock and 10,000 tons of sand. Matt said it is their busy season now and they would prefer not to stop and haul material. (DM/PA) Donnelly said he spoke with James Dean and he said Dean is open to negotiate with Riley, but there is a large pile of gravel in the area where they want to place their crushing equipment. Riley has labor invested in material still on the property. Riley could sell the amount of labor he has in the material to Dean's, but Riley needs the materials for concrete production. (DM/PA) Donnelly said James Dean is open to negotiate with Riley's to make a smooth transition of operators.</p>
<p><b><u>MARKETING REPORT</u></b></p>	<p>(DM/PA) Donnelly received two calls in the last week of people who want to build buildings on BPT. Both are associated with Insitu's new contracts. It was brought to the Commission's attention that the Port could be a participant in one of the new buildings for the port office.</p>
<p><b><u>Water Rate Analysis</u></b></p>	<p>(DM/PA) Donnelly said there will be a public hearing on August 21<sup>st</sup> for water rates. Letters have gone out to all the tenants with the proposed rate sheets. He also encouraged tenants to submit written comments if they cannot attend the meeting.</p>
<p><b><u>Salt Cakes - DOE Sampling</u></b></p>	<p>(DM/PA) Donnelly said the DOE will take samples of the 2<sup>nd</sup> salt cake site on August 14, 2007. (DM/PA) Donnelly will be on site with Bob Swackhammer on August 14.</p>
